Away Mode

Highlights

Connect in a Smart Way

Everything you enjoy about smart plugs, now in a discreet in-wall smart power outlet. Revamp your living spaces and experience a new way to control your home. Turn each outlet on/off individually, set schedules, and even use simple voice commands with Alexa and Google Assistant to control your devices.

Note:
The app screen depicted is for visual reference only and does not necessarily represent actual product operation or app appearance.

Schedules

Set schedules with the Kasa Smart app to automatically turn your smart outlets on or off while you're away.

Highlights

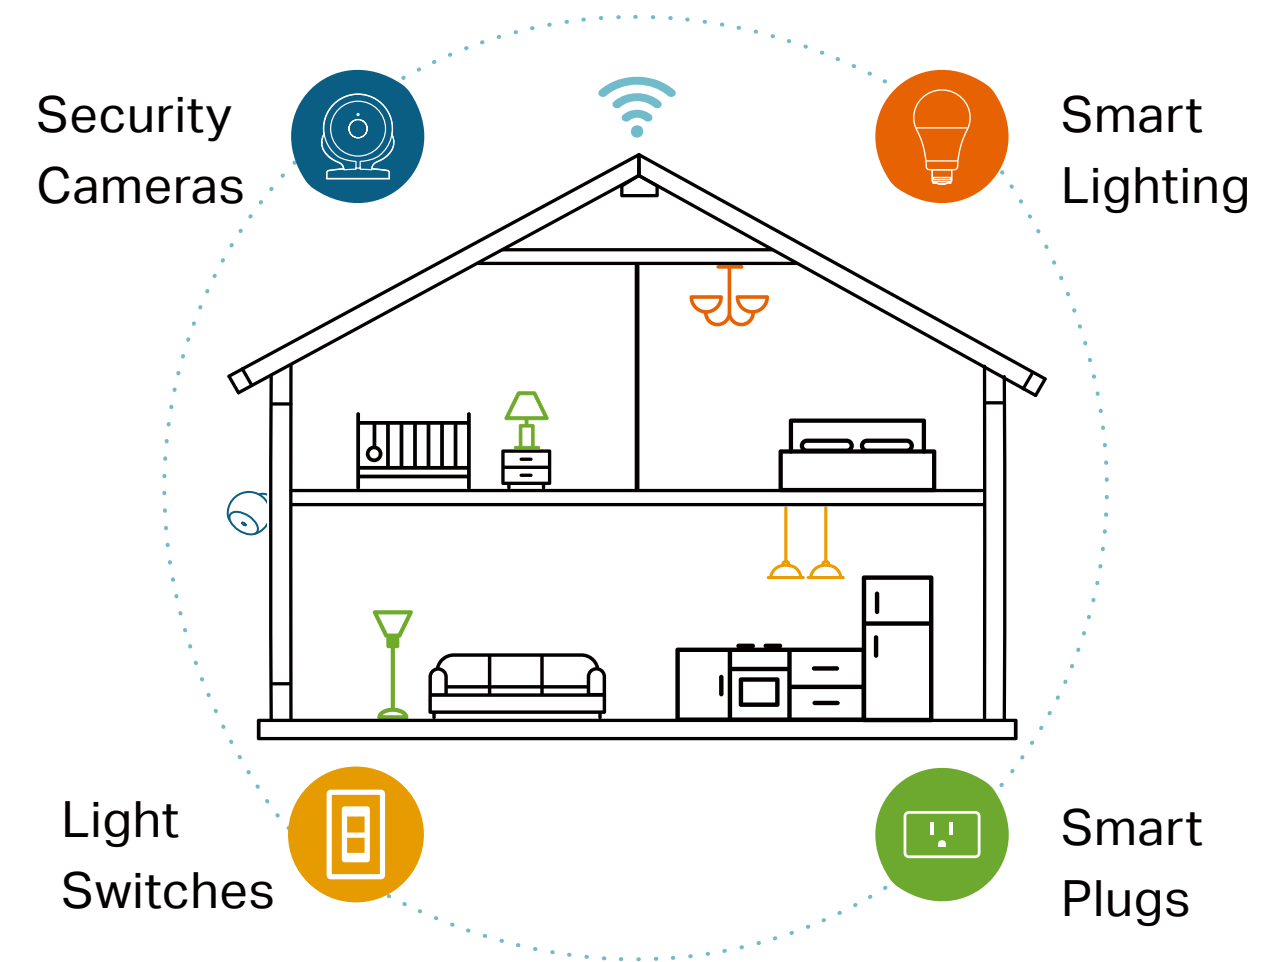

Hands-free Voice Control

Control your connected devices with simple voice commands via Amazon Alexa or Google Assistant.

Your Home. One App.

With the Kasa Smart app, you can easily access and control smart plugs, cameras, light switches, bulbs and more. Checking in on your home is only a few taps away.

Features

Easy to Install

- Guided Installation – Kasa smart app provides step-by-step instructions to help replace your existing in-wall outlets and set up your new smart outlet.
- No Hub Required – Connects to your existing 2.4GHz Wi-Fi. No hub or accessories required.

Ease of Use

- 2 Individual Outlets – Individually control each outlet and take up less space than smart plugs.
- Remote Control – Individually control smart outlets from anywhere with the free Kasa smart app.
- Scheduling – Set a schedule to automatically turn devices on and off throughout the day or night while you're home or away.

Compatibility

- Works with Voice Assistants – Control devices using the leading voice assistants such as Amazon Alexa and Google Assistant.
- Works with SmartThings– Control and manage your Kasa devices with SmartThings.
