

Mounting clamp-Fig

The **Flexi-Clamp** is a pole and surface mount KIT that accommodates Tilting option along with both vertical and horizontal pole mounting applications, as well as basic flat wall mounting.

The **Flexi-Clamp**, which replaces the original L-Mount clamp boasts a strong design, a longer pole length and base, and a wide articulation angle of **90°**.

This comes preassembled, right out of the box. It is ready for any access point or radio attached to it which is **light weight** and does not require put additional weight and using minimum space at the Mast, Pole or Tower end.
